

KNOWLEDGE IS POWER

WHAT'S IN YOUR GENES?

We all inherit our genes, but what do they actually tell us about
our **health**, **our families**, and **our future**?

UNDERSTAND YOUR GENES

Discover what genetic testing can reveal about inherited risks for cancers and genetic conditions.

POWERFUL STORIES

Hear firsthand from patients and physicians whose lives have been impacted by genetics or family history, and the support available.

PREVENT TODAY,

EMPOWER TOMORROW

Learn how early knowledge and prevention screening can lead to better choices and better outcomes.

STRONGER TOGETHER

Make informed decisions for yourself, your family, and future generations.

Wednesday, October 14
7:00pm

Location: Sandy Springs
